Hi everyone!  
I am Ivanna Ihnatchuk

**I have a dog. His name is Niki**

# **My hobbies**

# I LIKE TRAVELING

*The world is a book and those who do not travel read only one page. - St. Augustine*

*I like traveling with family and friends. If we enjoy to travel, we see and learn many things that we can never see or learn at home, although we can read about them in books and newspapers, as well as see pictures of them on TV. The best way to learn geography is to travel, and the best way to get to know and understand people is to meet them in your own homes.*

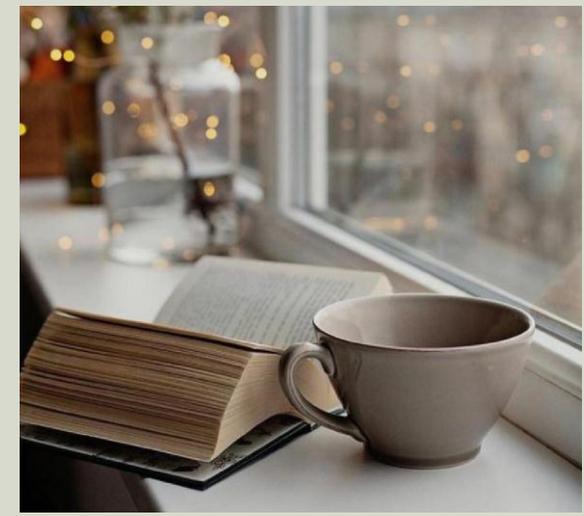

# I AM FOND OF DRAWING

- Drawing is exactly what helps me calm down, distance myself from the world around me and live differently, live in a world of creativity and infinite beauty. But I will clarify, I'm not a professional in my field, I'm just a beginner-amateur. I like to do what I like, so over time I will get better and better. And whatever you do, this work should give pleasure and consolation, inspire new life achievements, fill with inspiration, give strength for further work.

# I ENJOY READING

- I really like reading. I like to experience the adventures of each hero. Books help us to get to any country at any time to learn about incredible things. They introduce us to people who live very far away and speak other languages, or tell us about the lives of animals, plants, even stars that we will never be able to touch! I think that reading is a very useful and interesting thing, so I read every day. The book is a real friend of mine.

# COOKING

- I like to cook – it's my hobby. From childhood, I helped my mother prepare a variety of dishes, always asked for it, I made it with great pleasure. Now more and more often I cook for them, my parents, brothers and sisters. I think it's a very useful hobby, because when you cook, you will put your soul, you give your love to others.

Thanks for your attention!
